The Honorable Debbie-Anne A. Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

Docket Number CP-25-29-000, Eastern Gas Transmission & Storage, Inc. Capital Area Project

Dear Secretary,

On behalf of the Renovo Community Trade Association (RCTA), I am writing to express our support for the Capital Area Project (CAP) proposed by Eastern Gas Transmission and Storage, a subsidiary of Berkshire Hathaway Energy (BHE) GT&S.

BHE GT&S has been and continues to be a major industry partner in our region; providing sustainable jobs and providing much needed charitable support to our small, rural community organizations within the greater Renovo area. BHE GT&S has time and again proven their commitment to safety, dedication to community, and concern for the environment. The latter is very important to our region, our tourism efforts, and the pristine miles of forest and rivers that we call home.

This CAP project will strengthen the BHE GT&S energy impact and in turn will solidify the long-term sustainability of their location in Western Clinton County, PA. Approval of the increase of storage at the Clinton County site will not only help the growing needs of the end user, but will have a positive, residual impact for our economy and small businesses that reside in the BHE project area.

As a non-profit organization focused on economic development and job growth in our region, we fully support the project and encourage the Federal Energy Regulatory Commission to allow the expansion to proceed.

Thank you for your consideration and your support of rural PA.

If you have any further questions or would like more information about the RCTA, please contact me at any time.

Sincerely,

Kyle Stewart

Kyle Stewart
