The Honorable Debbie-Anne A Reese, Secretary
Federal Energy Regulatory Commission
888 First Street, NE
Washington, DC 20426

RE: Docket CP25-29-000 Eastern Gas Transmission and Storage, Inc. Capital Area Project

Dear Secretary Reese:

I am writing to express the (MSC) strong support for Eastern Gas Transmission and Storage's (EGTS) application to the Federal Energy Regulatory Commission for its Capital Area Project.

The Capital Area Project includes upgrades to four existing compressor stations, including three in Pennsylvania and one in Virginia.

Please note, this project does not involve the construction of any new pipelines or related facilities to implement. In addition to requesting FERC approval of this applicant. EGTS will be pursuing and acquiring any new or modified air quality permits from state environmental agencies.

I urge FERC to give this application favorable consideration in a timely manner, so that the critical construction work and associated environmental permitting processes can proceed in a manner that allows the Capital Area Project to meet its anticipated in-service schedule for winter 2027.

Thank you for your consideration. I wholeheartedly support Eastern Gas Transmission in their application.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. Borowicz', written over a printed name.

Stephanie Borowicz

State Representative, 76th Legislative District
